

DCS Caustic Foam 2110

Product Application:

DCS Caustic Foam 2110 is a high foaming premium built liquid alkali cleaner containing no chlorine and designed for difficult foam, manual and other cleaning applications where high foam characteristics are not an issue. DCS Caustic Foam 2110 is strong enough to handle the most difficult soils and cleaning applications and yet economical. The unique surfactants and builders in DCS Caustic Foam 2110 dissolve the most difficult soils while maintaining free rinsing characteristics.

Quality

Properties:

Pounds per gallon: 10.0

Specific gravity: 1.20

Foaming properties: Very high foam

Use Directions:

DCS Caustic Foam 2110 is designed for use in all foaming equipment, including wall mounted and portable units. For foaming in heavy soil conditions, cleaning is normally performed at 1-2% solution strengths. For other cleaning applications or specific cleaning recommendations contact your **PureLabs** representative who will design the best cleaning program for your facility.
