

## HT Circ 2030

### Product Application:

HT Circ 2030 is a versatile premium built liquid alkali cleaner for difficult CIP and other circulation cleaning applications. HT Circ 2030 is strong enough to handle the most difficult high temperature cleaning applications and yet economical enough to handle all CIP cleaning applications. HT Circ 2030 is a completely built alkali that will clean tough protein and burnt-on soils while handling hard water.

### Properties:

Pounds per gallon: 11.0

Specific gravity: 1.32

Foaming properties: Very low foam

### Use Directions:

HT Circ 2030 is designed for use at 0.25-2% solution strength depending on the equipment and soil. For heavy soil conditions in high temperature applications, cleaning will be performed at 1-2% solution at 145-185°F for 30-60 minutes, while lighter applications will be 0.25-0.5% solutions. Your **PureLabs** representative will work with you to design the best cleaning program for your facility.
