

## PAA 5050

### Product Application

PAA 5050 is a state of the art peroxyacetic acid sanitizer for use in the dairy, food and beverage processing industry.

PAA 5050 has a high oxidation potential and is very reactive. It exhibits excellent bactericidal and fungicidal activity against a wide range of microorganisms in cold or warm water.

### Properties

Peracetic acid (% wt.)	5.6-6.0
Density	1.12
Foaming properties	very low
pH of 10% solution	<1

### Use Directions

Note it is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For food contact sanitizing a potable water rinse is not necessary if less than 2.0 oz/5 gal (200 ppm active PAA). Check with your

**PureLabs** representative for technical support on which sanitizer is best for your facility.
