

ST 2060

Product Application:

ST 2060 is a high foaming premium built liquid alkali cleaner containing no chlorine and designed for difficult foam, manual and other cleaning applications where high foam characteristics are not an issue. ST 2060 is strong enough to handle the most difficult manual, foam and boil - out cleaning applications and yet economical. The corrosion inhibitors and complex surfactants ST 2060 dissolve the most difficult soils while maintaining free rinsing characteristics.

Properties:

Appearance	Yellow to brown liquid
Odor	Mild detergent
Foaming properties	High foam
pH of 1% solution	<12.5

Use Directions:

ST 2060 is designed for use in a variety of cleaning applications including manual and to foam clean through wall mounted and portable units. For cleaning in heavy soil conditions solution strength of 1 - 2% will work for most soils. For specific cleaning recommendations contact our [PureLabs](#) representative who will design the best cleaning program for your facility.
