

TBOSA 5040

Product Application

TBOSA 5040 is a new generation low foam long chain fatty acid sanitizer for use in the dairy, food and beverage processing industry. TBOSA 5040 has the unique advantage of extremely low foam even when circulated through CIP systems and will keep the stainless from forming mineral stone deposits.

Properties

Decanoic acid (% wt.)	3.0
Nonanoic acid (% wt.)	3.0
Phosphoric acid (% wt.)	28.5
Foaming properties	very low
pH of 10% solution	<1

Use Directions

Note it is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For food contact sanitizing a potable water rinse is not necessary if less than 1 oz/6 gal (90 ppm of decanoic and nonanoic acid). Check with your **PureLabs** representative for technical support on which sanitizer is best for your facility.
