

IO Purge 5060

Product Application

IO Purge 5060 is 3.5% titratable iodine based sanitizer for use in all hard surface and CIP sanitizing applications in food and dairy industries. The unique combination of iodine, acid and surfactants achieves superior anti-microbial results under even the most adverse conditions. IO Purge 5060 has one of the lowest use costs of any EPA iodine based hard surface non-rinse sanitizer.

Properties

Appearance	dark, amber liquid
Specific gravity	1.2
Foaming properties	low/moderate
pH (as is)	<2

Use Directions

Note it is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For food contact sanitizing 1 oz to 13 gallon of water provides 25 ppm of active iodine. Check with your **PureLabs** representative for technical support on which sanitizer is best for your facility.
